

School-Age Program

School-age education for 6-12 year olds

Even after school's out for the day, children need to be engaged in a comfortable, yet stimulating child care environment. That's where Catch the Wave comes in.

At Thinking Tree, after-school program for all school-age children to balance learning and fun through a variety of experiences. From homework help to developing complex coordination skills, engage with peers, and practice group study. They will begin to express their goals and wishes as they seek self-identity and explore interests and behaviors in an age-appropriate way.

Everything we do is designed for learning, which makes it fun and enjoyable.

Thinking tree **After-School Program Features**

- Individual attention in a small-class setting
- Comprehensive learning program with before- and after-school care
- Regular homework support
- Emphasis on developing leadership and communication skills through the Classroom Council
- Educational and fun field trips and school presentations that build on classroom learning
- A comfortable environment designed to boost your child's confidence, self-esteem, character, and social skills
- Comprehensive reporting on individual child achievement through standardized tests and parent-teacher conferences

Your child's early education at Thinking tree

Our four areas of focus give your child endless opportunities to learn and grow.

Communicating With Others

Thinking Tree helps your child develop effective communication skills.

We provide opportunities to practice active listening, negotiation, compromise, and leadership through the Classroom Council; support teamwork on long-term projects; and encourage language and communication skills through literacy, variety writing, and group discussion.

Building Brain Power

Thinking Tree helps inspire your child to enjoy learning and promote challenges.

We provide experiences that develop your child's ability to problem-solve, observe, predict, and explore cause-and-effect relationships; provide opportunities to explore math relationships such as classification; and provide support and time to complete homework and school projects.

Making New Friends

Thinking Tree supports your child in developing healthy peer relationships.

We provide opportunities to work in teams; the Classroom Council, group games, and events to develop leadership, planning, organizing, and team-building skills.

Nurturing Creativity

Thinking Tree motivates your child to express creativity.

We enhance confidence through movement and encourage experimentation by provide opportunities to build abstract concepts and problem-solving skills; and stimulate creative writing and expression through poem- and story-writing, performance, and word games.
